LOOK AROUND

In order to see something off to the side, manatees have to turn their bodies all the way around—they can't turn their heads sideways!

WORD LIST

MANATEE
SEACOW
AQUATIC
MAMMAL
TROPICAL

GRASSES
ALGAE
HERBIVORE
GENTLE
MARINE

ALLIGATOR^{AT} LARGE!

LOOKING TO SPOT AN AMERICAN ALLIGATOR?

Can you find the alligator in this picture?
Color in the GREEN dots to reveal one.

SNAKES ON A PLAIN!

CAN YOU SURVIVE THIS DANGEROUS DESERT TREK?

Carpet vipers can live anywhere from the desert to the forest, but today they all seem to be on on your path! Can you make it to the end of this maze without running into one?

START

DENTAL DANGER

A viper has two hollow fangs that are on hinges so they can fold back up when they're not in use. They can also rotate!

FINISH
